We are delighted to announce the Jazz With 2024 laureates !

Jazz With was a gamble with several variables and today it's a successful gamble.
100 applications were received - proving that this project is a response to a complex reality shared by many artists, from all corners of Europe - reminding us of the essential role of AJC and its many relays in the European landscape, and each one of them brings us back to the essential: a European jazz of great quality in which French musicians are deeply involved.

But this presence suffers from many difficulties and this is why Jazz With was created. The aim is to promote and raise the profile of these collaborations, to provide financial support and to help organise smart tours thanks to our networks. After much listening and discussions, the 3 groups selected - **T.I.M, Volkmann/Jarret/Andrzejewski trio and Weave 4** - will perform at the next Rencontres AJC in front of a large audience of French and European professionals and will receive a grant of 3,000 euros and all the support they need to perform as much as possible in the next months.

We hope that this project will continue to grow and that more artists will be selected tomorrow, underlining the importance of the French scene to keep in touch with the entire European jazz scene!

About Jazz With

Jazz With is AJC's brand new programme to support French and European tours, with the aim of encouraging an existing but under-funded trend: artistic projects that bring together French and European artists. Jazz With offers its laureates the chance to perform in front of an audience of professionals at the AJC's Rencontres, as well as a grant of €3,000 to help them organize their tours. The selected projects will also receive research and reflection support from the AJC teams and members of the network in order to create the collective momentum needed to promote jazz more effectively in France and Europe.
